

baby tonight

close your eyes
close the door
you don't have to worry
anny more
I'll be your
baby tonight

shut the lighth
shut the shade
you don't have
to be afraid
I'll be your
baby tonight

well, the mocking bird is gonna fly away
we're gonna forget it
the big fat moon is gonna shine like a spoon, but
we're gonna let it
you won't regret to

kick your shoes of
do not fear
bring that bottle
over here
I'll be your
baby tonight

well, the mocking bird is gonna fly away
we're gonna forget it
the big fat moon is gonna shine like a spoon, but
we're gonna let it
you won't regret to

kick your shoes of
do not fear
bring that bottle
over here
I'll be your
baby tonight
